

Overview

Advanced Strapping Systems

01

ADVANTAGES

Uptime & Efficiency

We will work with you to ensure that your strapping machine suits your company's needs. Whether you work with a standard machine or a custom model, our goal is to help you find a solution to optimize your output and help your business compete.

Safety

Safety is the number one priority for Itipack and for our customers. We build applications that keep everyone working safely. Itipack Equipment helps save lives.

Quality of Machines

Our design teams work with you to fully understand your complete process and create tailor-fit solutions that result in faster cycle time, greater uptime, and predictable maintenance.

02

SERVICE/SUPPORT

Preventative Maintenance Plan

Itipack works very closely with clients to develop and implement a maintenance plan that best supports productivity and efficiency targets set for their Itipack strapping equipment.

Strapping Head Rebuild Program

We offer a comprehensive rebuild service that includes completely disassembling your strapping head and thoroughly inspecting/cleaning all inner and outer head components ultrasonically.

Strapping Head Training

We provide in-class and hands-on training focused on preventative maintenance, with an emphasis on scheduled service and responsible replacement of pre-determined wear-spare parts.

03

CUSTOMIZED TO SUIT YOUR NEEDS

We work with customers to design a machine that will help them succeed. Our commitment to deliver what is needed in a strapping machine, whether it is a custom fit, custom solution or a standard machine, keeps businesses running smoothly and on time.

Advanced Strapping Systems

04 SPARE PARTS ACCESS

REPAIR & REBUILDS

Itipack Systems specializes in the repair of strapping heads and strapping machines and use only the best available parts for each system.

TRUSTED PARTS

Itipack delivers a diligent and proactive approach to preventative maintenance while also providing a trusted parts and service experience you can count on. Our primary focus is on providing our clients with the very best service, preventative maintenance, support and parts.

05 RETROFITS/INTEGRATION

RETROFITS

At Itipack, we have a complete team of equipment designers, engineers, and project managers that have extensive experience retrofitting all types of strapping equipment. We also have a complete line of the very best strapping equipment components, including high-tension strapping heads for both AAR approved steel and plastic strap. If you are looking to upgrade your equipment in any way, please do not hesitate to call us - we can help.

INTEGRATIONS

Itipack Systems has the ability to integrate with existing lines or work with OEMs in the design and commissioning of brand new lines. Contact us today to see how we can help.
