ABOUT ITIPACK SYSTEMS

**GREAT PEOPLE. SAFE ENVIRONMENT.
EXCEPTIONAL SERVICE.**

Itipack Systems is a world leader in integrated strapping solutions. Each one of our systems shares in our firm commitment to high value, optimum performance and long-lasting results. The company was founded to provide advanced, custom solutions to industries with specific and unique manufacturing requirements.

WHY ITIPACK

DRIVEN TO INNOVATE

01

Complex Problem Solving

Our success comes from qualified and skilled engineers who can develop concepts that fully address the complete scope of work.

02

Responsive Service

We provide our clients with the best preventative maintenance service and support available within their industry.

03

Creating Efficiency

Our design teams work with you to fully understand your complete process and create tailor-fit solutions that result in faster cycle time, greater uptime, and predictable maintenance.

04

Safe Work Environment

Safety is the number one priority for Itipack and our customers. We build applications that keep everyone working safely. They save lives.

CORE VALUES

Integrity

We will seek to do what is right in all we do, no matter what

Continuous Improvement

We are dedicated to continually improving ourselves, our people and the products we sell

Drive

Driven and motivated to take on any challenges

Commitment

We do what we say we are going to do

Enjoyment

We want our people, our customers and supplier to experience happiness

**“Reduce downtime & increase safety
through quality, custom systems, and
unparalleled service”**

- Our mission

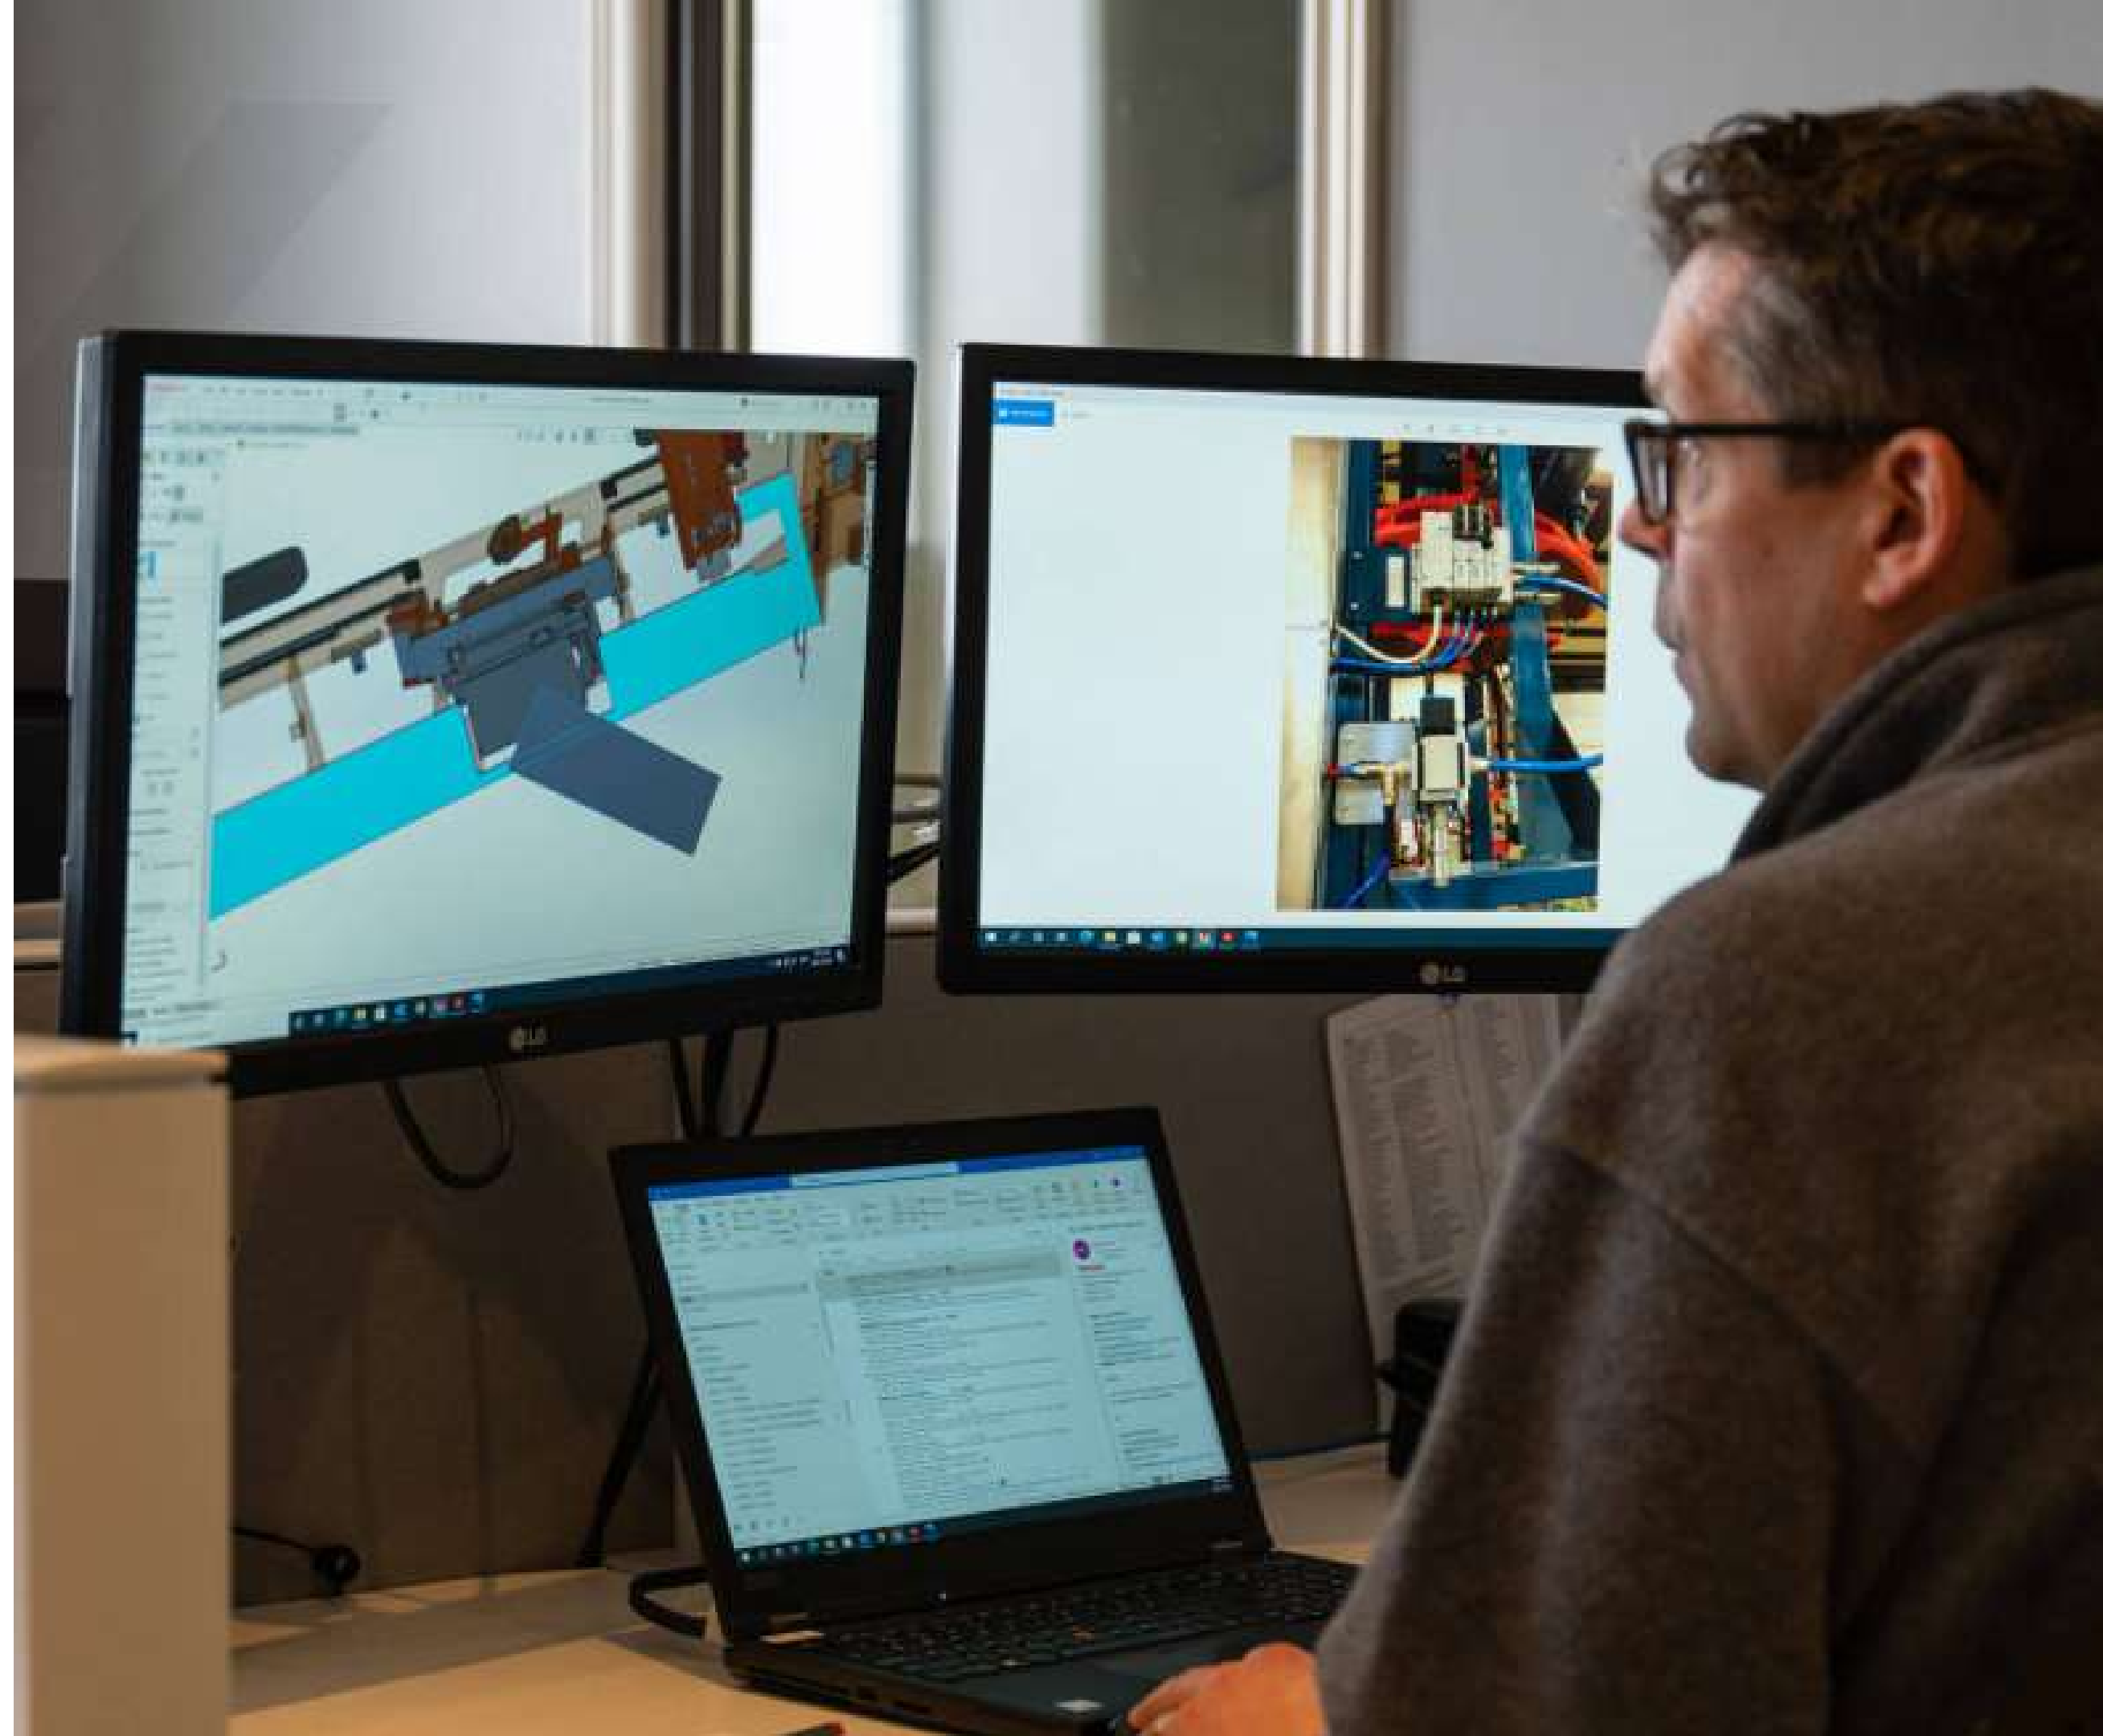

COMPLETELY CAPABLE

Itipack has the capability to produce everything from industry standards to impossible. We deliver results that make everyone proud.

01 INNOVATIVE ENGINEERING

Whether through consulting and sales, or development and engineering, Itipack works closely with customers to provide solution-focused results. There is no one-size-fits-all, quick fix in the strapping industry.

02 **IN-HOUSE PRODUCTION**

Itipack effectively engineers, assembles, integrates, and commissions all of our own equipment. We are proudly owned and operated in North America.

03 RESPONSIVE SERVICE

We are adept at retrofitting older, existing equipment, and commit to servicing it, adding years to the life of the machine. Our parts and service team increases efficiency and reduces costly down time.

OUR HISTORY

1970

Mr. Bruno Benetti incorporates
Itipack SRL.

2001 - 2009

Itipack SRL and A&H Custom Machines partner to
create Itipack Systems North America in
Burlington, Ontario. The parts and service
department is created to answer customer
questions and provide part order fulfillment.

OUR HISTORY

2012 - 2016

On November 12, 2012, the Burlington facility caught fire. All manufacturing moved temporarily. On November 13, 2013, Itipack Systems North America moves back into the rebuilt facility with new manufacturing machines. Itipack Systems North America transforms into Itipack Systems a Division of A&H Custom Machine.

2021

Itipack Systems reveals a new look and integrates HubSpot CRM and Marketing Software for outstanding customer relationships.

PARTS AND SERVICES

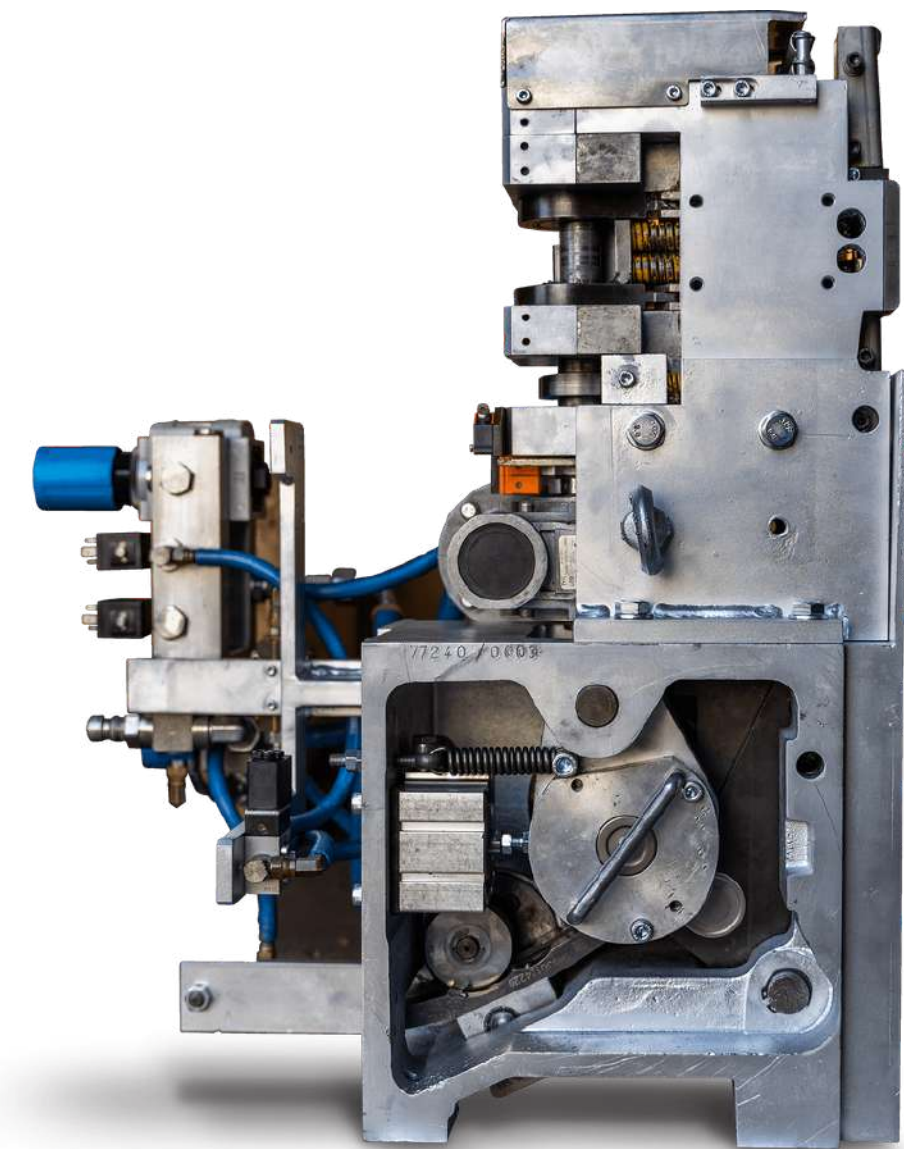

WE STAND BEHIND OUR PRODUCTS

PARTS

Itipack delivers a diligent and proactive approach to preventative maintenance while also providing trusted parts and service experience you can count on. Our primary focus is providing our clients with the best service, preventative maintenance, support and parts available.

SERVICES

It is important to have a diligent and proactive approach to preventative maintenance. Itipack works with you to implement the best program for your facility.

SERVICES

01

PREVENTATIVE MAINTENANCE PLAN

Itipack works very closely with clients to develop and implement a maintenance plan that best supports productivity and efficiency targets set for their Itipack strapping equipment.

02

STRAPPING HEAD REBUILD PROGRAM

We offer a comprehensive rebuild service that includes completely disassembling your strapping head and thoroughly inspecting/cleaning all inner and outer head components ultrasonically.

SERVICES

03

STRAPPING HEAD TRAINING

We provide in-class and hands-on training focused on preventative maintenance, with an emphasis on scheduled service and responsible replacement of pre-determined wear-spare parts.
