# ABOUT US

**Itipack Systems is a world leader in integrated strapping solutions.**

Our custom-made strappers can be fabricated to exact requirements thanks to our unique engineering approach. Whether you have space restraints, technology requirements, complex integrations or need customization a standard bander cannot provide, we will work with you to provide the correct solution.

## ROBOTICS AND CUSTOM:

### ROBOTIC DUNNAGE APPLICATOR FOR PANEL MACHINE:

Our newest strapping system that launched comes complete with a fully automated robotic dunnage system allowing for greater efficiency and safety than ever before:

- Fully automated plastic strapping head
- Electric Top Edge Protection
- Optional Side Compression - HMI selectable
- ABB Robot with Three Vacuum Bars for Bunk placement

### PUP COIL BANDER:

Itipack continues to emerge as the leader in strapping solutions for the most advanced steel and aluminum mills in the world. Each of our systems shares our firm commitment towards high value, optimum performance, and long-lasting results.
