ABOUT US

Itipack Systems is a world leader in integrated strapping solutions.

As the aluminum industry changes, along with the handling of products, Itipack continues to emerge as the leader in strapping solutions for all aluminium products.

EQUIPMENT FOR STRAPPING STEEL & ALUMINUM PRODUCTS:

ID/RADIAL AND OD/CIRCUMFERENTIAL

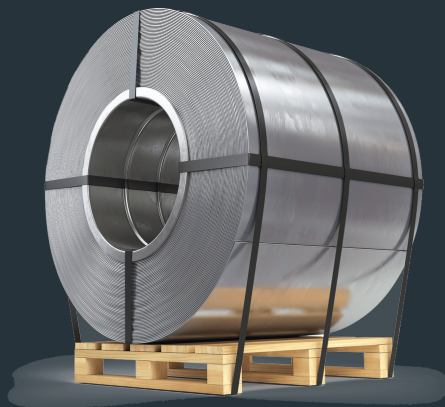

Itipack builds and installs custom radial approach strapping machines as well as circumferential strapping machines to help our customers succeed and keep their businesses running smoothly.

LONG PRODUCTS

We design and manufacture steel and aluminum long products including tubes, bars, and more. Our products are customized to meet the needs of our clients.

SLIT COILS

We are your go-to source for coil slitting equipment. If you work in an industry that requires cutting steel or aluminum coils down to specific sizes and weights, our engineering team can customize coil slitting line equipment to meet your exact specifications.
